

Principal Spends Thanksgiving With Two Pupils -- in Hospital

By JANET ROBINSON
FR 5-7063

It is not often that a school principal spends Thanksgiving with two of his school pupils under the same circumstances that Webster Smith, Newton School principal, did last week. On Tuesday, Mr. Smith underwent an emergency appendectomy at the Torrance Memorial Hospital. On Thursday, Thanksgiving Day, Michael Charter of 4414 Pacific Coast Hwy. was admitted to the hospital and he also underwent an appendectomy operation on Friday. After surgery he was assigned to the same room David Powers, of 24008 Janet Lane, has been staying in for the past week. David has been under observation for an infection in the knee. He expects to be released today or Friday. Michael left for home on Monday, and Mr. Smith was able to go home on Saturday. The boys enjoyed seeing their principal everyday when he paid them a visit from across the hall.

Since we have so many twins here in Ellinwood, Elaine Everett asked me to announce through the column that there is a "Mother of Twins Club" that meets the first Monday of every month. They usually enjoy a dinner meeting and often have speakers who talk on the problems mothers encounter in dealing with twins. Every three months the members have a social gathering with

their husbands and all the parents can talk over the unique problems they have and also the fun they have in raising their twins. At the present time there are about 50 members in the club. They also have an exchange table where equipment that one pair of twins has out-grown, can be purchased or traded for other twins' use.

Anyone interested in attending the meetings may call Elaine at FR 5-7452. Her address is 4808 Green Meadows Ave.

Girl Scout Troop 167, held a simple investiture ceremony at its meeting on Wednesday, Nov. 14th, at Newton School. Mrs. Paul Albright is leader and Mrs. George Vico, co-leader. The newly invested girls are Kathryn Adams, Janis Struble, and Rita Noble, who now bring the troop's membership up to 22 members. After the investiture ceremony the rest of the afternoon was spent on first aid requirements for second class rank. Expert instructions were given by three Girl Scouters, Tina Sieh, Susan Matson, and Barbara Bakerbower.

The 22 members of Troop 167 and 16 members of Troop 144 have joined in a series of folk dancing lessons under the direction of Ed Feister. They started on Nov. 21st. The leader and co-leader of Troop 144 are Mrs. W. C. Bowman and Mrs. J. Garland Brown.

shower was given for Jeanne Pope last week at Marilyn Torstenson's home. Marilyn managed to get Jean over to her house on some pretext and upon entering, Jeanne found her friends gathered around the luncheon table decorated in pink. After a delicious luncheon the guest were served pink angel food cake. Those enjoying the surprise party were Frankie Stamm, Sue Austin, Cecil Banaszynski, Donna Franks, Marian Zurborg, and, of course, Marilyn and Jeanne.

On Sunday, Nov. 18th, while they were attending Sunday School something happened to the tricycles of the 3-year-old Zurborg twins. Probably some children found them and rode them home. This week one of the bikes were found over a block away. Marion called to ask that if anyone here in Ellinwood finds a strange green trike with a red stripe down the back, to please call her at FR 5-7268. Cheryl and Carol love to play with their trikes and miss having both of them.

The Zurborgs entertained Bill's father, August Zurborg, and his great grandmother—the children's great-great grandmother, Mrs. Ella Elwell, on Thanksgiving Day. Along with Marion and Bill and their four daughters, Kathleen, Debra, Cheryl and Carol, they had a family dinner for eight.

The Brownies of Troop 234

and their leader, Mrs. Lelan Livingston, held an investiture ceremony for Jewel Dee Redding, at El Retiro Park, Friday morning. The program, which opened with the flag salute and songs, included the awarding of membership stars. Troop members Pamela Adair and Ann Lightfoot received their second-year star; first-year stars were given to Joy Lyn Cloud, Pamela Donald, Jan Harrell, Susan Livingston, Nancy Reynolds, Sherry Riley, Diane Sakai, Sandy Turner, and Beverly Werner. At noon the girls enjoyed a picnic lunch followed by an hour of games. Mrs. Dexter Howard and Mrs. Joe Redding were guests.

Torrance Reports Four Scarlet Fever Cases
Torrance had four cases of scarlet fever and two cases of measles during the week ending Nov. 17, according to figures released by the County Health Department.

The city led other South Bay cities, during the week. Reported in this area were five cases each of measles, hepatitis, and tuberculosis, and one case each of epilepsy, mumps, polio, streptococcus infection, and tubercular infections.

MAPLE TREES
There are at least 13 different varieties of maple trees in the U. S.

Horse Show Scheduled For Sunday

Torrance area riding enthusiasts will congregate Sunday at the Empty Saddle Club for the Rolling Hills Horse Show. Grand entry for the equestrian event is scheduled to start at 11:30 a.m.

Bleachers have been provided for spectators, and food will be served on the grounds for the all afternoon affair. A spokesman for the Rolling Hills sponsoring group has announced that trophies will be presented to each of the winners in the 13 classes, with ribbons going to runners-up to sixth place.

Competition will be held in English and Western classes, junior and senior divisions in pleasure and horsemanship; trail and stock horses; jumpers; pole bending; stoke race, and speed and action. High point winners in both the English and Western classes will be awarded additional prizes.

Information concerning entries for the annual show may be obtained by contacting Miss Kathy Walters at DA 6-4833.

HIGH POINT
Mount Mitchell in North Carolina is 6684 feet above sea level and is generally claimed to be the highest point in the United States lying to the east of the Mississippi River.

PORK CUTS

An estimated 75 cents of every dollar a consumer spends for pork goes for cuts that make up somewhat less than one-half the hog's live weight.

SHRIMP CATCH

The American shrimp catch has increased by 10 times in 50 years.

COFFEE PORT

Santos port in Brazil is now the leading coffee export source in the world.

New U.S. Road Project Calls for Millions of Tons of Steel

American road builders are off to a good start on the largest peacetime building project in world history — the United States interstate super-highway system. It calls for 41,000 miles of new, high-speed, multi-lane roads crisscrossing the entire nation.

When actual work began last August on this 13-year, 33-billion-dollar program it was D-Day for every supplier of road building materials. Steel requirements alone will run to millions of tons annually for years.

For the steel companies the road project is only one more of the many projects contributing to the mounting need for expansion of steel production facilities. These demands for more and more steel, and more varied types of steel, multiply as the needs of an expanding America unfold — for schools,

building construction, transportation, public utilities, production and preservation of food, and the rapidly-growing industries born of atomic parents.

To meet these needs the steel companies are already well along on plans to increase substantially the industry's annual production capacity. Contractors who will build the new highways estimate that their over-all steel requirements — steel bridges, curbing, reinforcements,

overpasses, tunnels — will run close to 4 million tons a year by 1960... All this in addition to the thousands of other day-to-day needs our fast-growing economy has for steel.

This roadbuilding project is a giant step forward in the growing prosperity of the country.

The superhighway network will mean faster, safer, cheaper movement of people and goods. It will mean hundreds of thousands of new jobs... general growth of business across the nation, rural and urban... And a satisfactory highway system has always been recognized as vital to national defense.

Steel's part in this 33-billion-dollar highway construction project reminds us once more that —

America and Steel Must Grow Together
